2/ The amount required from the whole of India is 10 lakhs and no information is available as to what contributions have been given or promised by the Government of India and the several provincial governments.

3/ 2. Her Excellency's speech at Madras refers only to the "encouragement forthcoming from many private persons" and the appeal therefore appears to be for private contribution and not for payment from revenues of Governments.

4/ 3. The revenues of a State should be applied only for the purposes of the State and it is not therefore right to sanction a grant from public revenues. If however, a State donation is considered

nesessary at all, I would suggest that it may not exceed Rs.10,000. Taking the population of Mysore and considering the comparatively poor resources of the State and the demands upon them, Rs.10,000 cannot be held to be an inadequate contribution. Besides there is already a heavy deficit in the account of the Special Reserve, from which alone, payments like these can be made.

5) 4. The only other Funds of this kind are

(1) The Countess of Dufferin Fund, and

(2) The Victoria Memorial Fund.

No donation appears to have been given to either of these funds as far as could be made out from the published accounts of previous years.

11) The Press Communique (copy appended) of the Punjab Government regarding its contribution in response to Her Excellency Lady Chelmsford's appeal in support of the cause of maternity and infant welfare, published in the Newspapers of 7th instant, has apparently been perused by Government.

2. I stated in my note on the case relating to this subject that no information was available about the grants given or promised by the Provincial Government in British India. The contribution of one Government - the Punjab - is now known and it will be seen that it is only Rs.5,000 (Five Thousand) The annual revenue of this Government is over 10 crores.

3. I also stated in my note that the revenues of Mysore should not be allowed to be applied for any purpose outside the State and it will be seen from the Communique that the contribution of Rs.5,000/- has been given by the Punjab Government only to the Lahore Municipal Committee for use in connexion with infant welfare in that City.

4. I wish to bring these facts to the notice of Government.

My dear Sir,

1 Please refer to your letter of the 1st February 1920 forwarding to me for opinion certain papers connected with Her Excellency Lady Chelmsford's proposal to found a Health Association in India.

2 The movement is no doubt an important and commendable one and if the association succeeds in reaching and influencing the masses of the people a great deal of real good can be accomplished. It may be hoped that the activity initiated by Her Excellency and supported by the Rulers of the various Indian States and the Public men of India will not fail to achieve a large measure of success.

3 It seems to me therefore that His Highness may well associate himself with the movement as a Patron as suggested by Her Excellency.

4 As regards a donation, I have informally consulted the Members of Council. They agree with me in thinking that His Highness may be graciously pleased to contribute a sum of Rs.25,000

(4 11

towards the endowment fund.

5 In regard to the other points referred to in the letter, I may state that two officers of the Public Health Department, Messrs. Karve and Mascarenhas, are being deputed to attend the Exhibition at Delhi and this seems to be enough.

6. When the Central Association is fully formed and we know more about its constitution and lines of work, it will be time to take up the question of forming a similar association in the State and affiliating it with the Central Association.

I return the enclosures to your letter.

Yours sincerely,
